1. The following is an examiner's statement of reasons for allowance: the references of record fail to teach or fairly suggest the invention as now claimed. Additionally, the examiner realized that due to the requirement for the probe-label system to be either chemically or photochemically ionized, the claim is limited to mass spectroscopic detection. These are common ways of creating the ions detected in mass spectrometry. Other types of spectroscopy would not need an ionization step and the disclosure does enable the scope of claim 9. As noted in the interview summary, Claim 9 does not limit the detection technique for any of the other claims. Furthermore, the required difference in comparative signal intensity is only limited in claim 9. Thus other detection techniques are not limited by this requirement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arlen Soderquist whose telephone number is (571)272-1265. The examiner can normally be reached on Monday-Thursday and Alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vickie Kim can be reached on (571) 272-0579. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
